Windows
& Doors

 **SPALVA[®]**

All that's *Good*

MORE THAN WHAT MEETS THE EYES

AN INWARD JOURNEY

Windows and doors are more than the outwardly material and structure that shape them. They come with a soul that can let the goodness in and keep the unwanted out. Simply put, they offer you a lifetime of goodness, if designed and made to do so.

Inspired by the inherent beauty of windows and doors, Spalva started taking one small step at a time towards exploring their full potential and eventually realizing it.

In the process, Spalva transformed from a steel fabricator into a world-class windows and doors manufacturer and marketer with a range at par and even better than any international brand.

A DIFFERENT PERSPECTIVE

With a continuously upgraded manufacturing facility at Pune, Spalva is redefining and redesigning homes and workplaces with some never-before seen and heard features of windows and doors.

Our endeavor is to bring out all that's good in windows and doors; be it the aesthetics, the functioning, or the utility.

With over four decades in the industry and market, we have perfected the art and technology of windows and doors making by combining Indian sensibilities with best global practices.

And the result is for you to see and feel at our show office or hear from the exponentially growing number of customers.

L-SHAPE CORNER SLIDING DOORS

- BLUESHIELD SERIES
- BLUESHIELD SLIMLINE SERIES
- SPALVA SERIES

L-SHAPE CORNER SLIDING DOORS

Technical Characteristics

Profiles

Aluminium Alloy 6063-T6 Grade

Facility

No Middle Column Required

Option

Fly Mesh Option Available.
Shutter Size Maximum W-1800 X H-2400
Track Sections 2/3/4/5 Track

Maintenance

Track - Easy to Clean

Vibration

Rollers of Needle Bearings with Polyamide
Nylon Casing for Smooth & Silent Sliding

Weather

Silicon-base Weather Strips which Restrict Dust,
Sound & Rain from Entering in

Glazing

Single Glass 4/5/6/8/10 mm
Double Glass 18 mm (4+10+4), 18 mm (5+8+5),
Laminated 4+1.5+4, Laminated 5+1.5+5
Glass Sealing High Quality EPDM

Option

Fly Mesh S.S. / Aluminium with S.S. Finish /
Georgian Bar / MS Grill

Security

Lock Self Pressing / Manual / Handle Locks /
Key Lock / Child Lock

Specifications

Wind Resistance 2200 Pa
Sound Reduction 35 dB (DGU 18 mm)

Finishing

Powder Coated / Anodized / Wooden Finish

Colours

All RAL Colour Shades Available
